

NEW HOME COLLECTION

at Seabrook Island

BUILDING MADE SIMPLE

1.

Select the plan

2.

Select the lot

3.

Select the finishes

The process is seamless and there are NO UNKNOWNs.

NHC PROGRAM BENEFITS

The New Home Collection is designed for people who want a beautiful new home without the sometimes arduous, time-consuming steps and decisions of designing and building a custom home. Our program offers thoughtfully designed plans that are then built by our highly skilled professional team. Alleviate the unknown and minimize the challenges and unexpected expenses that can be associated with building a custom home.

WE ASSEMBLED THE BEST FOR YOU

Each member of the New Home Collection building team has been meticulously vetted and purposefully selected. These well-respected firms have been active on Seabrook Island, Kiawah Island, or both for years and take a hands-on approach to serving clients.

FINANCIAL INFORMATION

FUNDING THE HOUSE CONSTRUCTION

The home will be built with the client's cash, or part cash and the balance provided through a construction-permanent loan. The builder will draw from the funds to pay for the construction. If a loan is obtained, the lender will require the builder to draw from the owner's cash first, then the bank will fund the balance until the construction is completed.

Draws are submitted periodically during construction, usually 6 or 7 times, once a portion of the work is complete. The lender usually will lock in an interest rate approximately 60 days prior to closing the loan. Closing of the loan would take place prior to the construction starting.

CONSTRUCTION FINANCING

Permanent-Construction loans may be obtained for up to 75% of the contract price in most cases. There are several local lenders in the Seabrook Island market that are active in this type of new home lending and are familiar with Seabrook Island's requirements for lending. Please see the NHC website for the contact information of the preferred lenders: SeabrookIslandNewHomes.com.
